DETAILED ACTION

Introduction

1. This action is response the amendment filed on 05-23-2006. Claims 1-12 have been amended. Claims 1-12 are pending.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claim 4-8 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Consider claim 4 recites "determining if one of the dual mono channels of one of the audio data streams of the second program corresponds to the one dual mono channel of the one audio data stream of the first program". It is not clear what is compared between the two channels in order to determine whether they correspond to each other. Thus, claim 4 is failing to particularly point out and distinctly claim the subject matter of the invention.

Allowable Subject Matter

4. Claims 1-3 and 9-12 are allowed.

Response to Arguments

5. Applicant's arguments with respect to claims 1-12 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

6 The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Yoshinobu et al. (US PAT.5,686,954) and Edwards (US PAT. 6,108,584) are recited to show other related the method of assigning audio channel identification, method for selecting audio channel using the same, and optical recording and reproducing apparatus suitable therefor.
